Just to be clear: \$SAVA faked additional "raw" data last week, sent it to @MarinaP63 at J Neurosci to receive their "blessing", halted the stock, then sent a press release relating this false, engineered news, causing the share price to double.

Is there a legal term for that?

Replying to @Adrian_H @MicrobiomDigest and @MarinaP63

Similar sharp difference in the mean background level with a "vertical profile" going from top down into the "original" image. 100% faked.

Not cool, \$SAVA. @MarinaP63 ...

This is confirmed by a simple 2D analysis of the « raw » image - local averaging followed by finding contours - we see magically the « cropped » area appearing which shows something DIFFERENT has been added to extend it - THE « RAW IMAGE » HAS BEEN DOCTORED \$SAVA

J Neurosci needs to:

- Retract this Erratum;
- Issue an Expression of Concern on Wang 2012;
- Do a proper investigation of all three Wang / \$SAVA JN papers

Gonna go out on a limb and postulate that the lack of lawsuits coming your way is a canary in the coal mine. Thanks for doing the legwork and assuming the risk. If they haven't come after you by now - it's because they have no case.

Um, I also haven't done anything but comment on a bunch of scientific papers and make snarky tweets, which is still allowed.

Oh of course it's allowed, but a billion-dollar company could at least afford to mail you a cease and desist. Cheap tricks from deep pockets.

They have been busy photoshopping all their "original" images, can't think of other things just yet.

Crunchy @CD_Payne · Nov 12, 2021

Look, they ain't coming out with their hands up. The fraud is too deep now. Jail time awaits, so they will play out the string as hard as they can. Real question is who is bankrolling the fraud alpha play?

I don't expect much from Remi. I expect better from J Neurosci.

Finding Nemo @Nemo_is_NoOne · Nov 12, 2021

Remi is so smart in this JN stunt, he literally shifted the "misleading investors" to Jneuro. The even more strange thing is, JNeuro doesn't realize not just their scientific reputation went down the drain, they

Remi is so smart in this JN stunt, he literally shifted the “misleading investors” to Jneuro. The even more strange thing is, JNeuro doesn’t realize not just their scientific reputation went down the drain, they could face many litigations in the days months years to come.
